At ready

Ruby (Ruby on Rails, Devise, Pundit, Rspec) - JS (ES6, ES5, jQuery) - PostgreSQL - HTML - CSS (SASS, BEM) - MVC design pattern - Git/Github

Basic knowledge

Middleman - Sinatra - ReactJS - Python - Django

Experience

Odicci | Junior full-stack developer

February 2019 - PRESENT | 44 Bedford Row, London, WC1R 4LL

Odicci is an Interactive marketing SaaS. It is a platform for creating. I work with **Ruby on Rails** on the back-end and **vanilla JavaScript** on the front end. We use **Github** as source control. The platform consists of an API, a customer facing oriented microsite and a client oriented platform for configuring campaigns, developing email templates and viewing reports of ongoing campaigns.

Le Wagon | Teaching assistant

April 2019 - PRESENT | Unit 13, London, Kingsland Rd, E2 8DY, 138

I am a TA at the new part-time course of the full-stack web developer course of Le Wagon. Explaining and helping the students with problems they run into during the exercises. The most recent topics were parsing with **JSON**, **XML**, **web scraping**, **calling APIs** and creating a basic terminal application with the **MVC pattern**.

Projects

Portfolio | portfolio-roan.herokuapp.com | github.com/RoanMertens/portfolio-test

Ruby, Rails, AJAX, Vanilla Javascript

This is a dynamic one page portfolio website. The focus was on creating a clean and responsive portfolio.

Grid Snake | gridsnake.com | github.com/RoanMertens/cssgrid-snake

Vanilla Javascript, CSS, HTML

This is a basic snake game. The focus was on learning about css grid, rehearsing the JS basics and training problem solving skills. One of the goals was to compare the JS code written by me with what was online after finishing writing it.

On Board | www.get-on-board.co | github.com/freddiescadding/on-board

Ruby, Rails, AJAX, Vanilla Javascript

On Board is a platform for board game enthusiasts who are looking for a community to play board games with. This app was created during the Le Wagon bootcamp.

Buddy Up | buddy-up-now.herokuapp.com | github.com/msanchezb/rails-airbnb-friend-group

Ruby, Rails, AJAX, Vanilla Javascript

The platform is an e-commerce platform inspired by Airbnb made during the Le Wagon bootcamp.

Education

Le Wagon | 9 week full-stack web developer bootcamp | www.lewagon.com/london

June 2018 - August 2018 | E2 8DY, London, 138 Kingsland Rd, Unit 13
